Kreston Albania

A company unique in the market, driven by excellence and the commitment to inherit values. Our professional staff is dedicated to offering highly qualitative as well as dynamic and market-oriented financial and consulting services.

01

Trust

The Latin word "Kreston" means trust. People do business with the people they trust. Trust is fundamental to our success, and it encompasses the notion of "Knowing you".

02

Long-Term Relationships

We endeavor to provide superior client service and build long-term client relationships.

03

Professional Culture

We maintain a professional culture that is supportive and motivating, all in fostering and rewarding high performance and creating meaningful career opportunities.

Why choose Kreston Albania

Since December 2014, Kreston Albania has been part of the Kreston Global Network. Based on the latest publication of the Public Oversight Board in Albania, Kreston Albania has been ranked the 3rd largest company among auditing companies.

Professionalism

Through our expertise, experience, and our staff's energy, we deliver close personal and professional attention to all clients. High standards and outstanding performance ensure the dedication of our whole firm to each client.

Responsiveness

We are responsive. Companies that choose our firm rely on competent advice, fast and accurate personnel. We provide total financial services to individuals, large and small businesses, and other agencies, earning the respect of the financial community. This respect illustrates our diverse talents, dedication, and ability to respond quickly.

Quality

The reputation of Kreston Albania reflects the high standards we demand of ourselves. Our primary goal as trusted advisors is to be readily available to provide insightful advice which enables our clients to make informed financial decisions. We invest in our continuous professional education to improve our technical expertise, financial knowledge, and service to our clients.

Global presence, local insight

Kreston Global, one of the largest international networks of independent accounting firms, was founded to help clients like you.

Kreston is the
13th
largest international
accounting network

Presence in over
110
countries

Over
27,500
professionals

Our network of over **150** firms in **110** countries with more than **27,500** professionals, gives you access to local contacts who understand the specific regulations and local culture in the countries where you operate.

Benefits of the network:

Financial mentoring and monitoring of SME

Our Sectors

The Industry Problem

As client expectations continue to evolve, professional services firms increasingly need smarter and more integrated ways to manage operations, improve collaboration, automate repetitive processes, and deliver a faster, more strategic client experience.

Most advisory firms still struggle with:

**Disconnected
systems**

**Manual
workflows**

**Fragmented
communication**

**Lack of real-
time business
visibility**

**Inconsistent
client
experience**

**Limited
strategic
insight**

Your Challenge

Design a smart CRM prototype for a multidisciplinary advisory firm that helps:

- Manage leads efficiently,
- Automate workflows,
- Improve client experience,
- Connect departments,
- Generate strategic insights using AI.

Key Question

How can technology improve collaboration between teams while simplifying the client journey?

Think Beyond Traditional CRM.

We are looking for:

- intelligent systems,
- automation,
- collaboration,
- predictive thinking,
- and scalable innovation.

Core Functionalities

Workflow & Operations

- task automation,
- deadline reminders,
- smart notifications,
- document coordination.

Client & Sales

- lead tracking,
- pipeline management,
- onboarding flow,
- automated follow-ups.

Reporting & Insights

- dashboards,
- KPI tracking,
- AI-generated insights,
- business reporting.

Goal

Create one integrated ecosystem instead of isolated workflows.

AI Integrations

**How can AI help professionals
focus less on repetitive tasks and
more on strategic advisory?**

We encourage teams to explore:

- AI-generated client insights,
- predictive recommendations,
- automated summaries,
- intelligent prioritization,
- proposal generation,
- chatbot assistance.

Bonus Innovation Opportunities

Creativity and business relevance matter as much as technical execution.

Teams can gain additional value by exploring:

- predictive business alerts,
- client risk scoring,
- compliance reminders,
- voice/note summarization,
- smart knowledge base,
- automated proposal generation,
- AI meeting assistant,
- workflow optimization suggestions.

Expected Deliverables

**At the end of the hackathon,
teams should present:**

- a functional prototype or MVP,
- platform concept or architecture,
- workflow demonstration,
- user journey explanation,
- AI integration concept,
- implementation logic,
- expected business impact.

Building the Future of Advisory
